Quorum Health Corporation

Community Health Systems is spinning off Quorum Health Resources, LLC and 38 CHS-affiliated hospitals into a new company called Quorum Health Corporation (QHC). The decision to spin off hospitals in some of these smaller markets sensibly realigns the Community Health Systems' portfolio to create two strong companies- Community Health Systems and Quorum Health Corporation – each with the focus and flexibility to pursue its unique operating model and growth strategies.

Quorum Health Resources will be a subsidiary of a public company, Quorum Health Corporation, just like we have been a subsidiary of Community Health Systems. Quorum Health Corporation will operate affiliated hospitals (owned by subsidiaries of the Corporation) and also include Quorum Health Resources, which provides management and consulting services to non-affiliated hospitals. Quorum Health Resources will not own hospitals.
